

The University of Alabama in Huntsville
ECE Department
Video Assignment
CPE 431/531 01/91/92
Fall 2015

Videos must be at least 2 minutes long, no longer than 2:15. Students may work in teams of up to four people. All people in the team will receive the same grade for the video. Topics for videos may include:

- 1) what a computer engineer does,
- 2) an explication of a concept learned in computer engineering, i.e., memory addressing, allocation of frames on a stack during program execution, recursion, etc.,
- 3) the value of a computer engineering degree,
- 4) how computer engineering might be different than electrical engineering or computer science,
- 5) reasons why students pursue a computer engineering major,
- 6) what a freshman might expect to experience as a computer engineering major,
- 7) something else approved by the instructor

The grading criteria are listed below. Topics and group memberships will be turned into Canvas box. Videos will be turned in by uploading them to a CPE 431 channel on YouTube. A dummy file will also be turned in on Canvas for grading purposes.

Important Deadlines:

Submit Topic	September 1
Topics Approved	September 3
Video Due	September 22

Criteria	Point Range	Points Assigned
Holds attention of viewer	0-10	
Clear audience identification	0-10	
Clear/Discernible Message	0-20	
Organization of Presentation	0-20	
Message Appropriate for Target Audience	0-10	
Meets Minimum Length Requirement	0-10	
Video Quality	0-10	
Coordination of Sound and Video	0-10	
	0-100
